

Removable Bollard 1000mm Above Ground 60mm - 219mm Diameter Galvanised & Yellow

The Removable Bollard offers an effective, simple and robust way to protect premises and vehicles. The simple tab and padlock system provides an easy to operate solution for locking the bollard in place. Removable Bollards are particularly suitable for locations where occasional access is required.

Yellow bollards are also suitable for use where high visibility is paramount and can be used around pedestrian precincts, pavements, play and parking areas, as part of traffic calming measures, pedestrianisation schemes and as a deterrent to ram-raiders. The Removable Bollard is available in diameters from 60mm through to 219mm. Padlock to secure is available at an extra cost.

The Removable Bollard 1000 is ideal for protecting vehicle forecourts, commercial premises, car parks and domestic driveways and can be used in conjunction with fixed bollards as part of a security system for all types of premises.
